

Declaration

Halal

Nouryon Industrial Chemicals declares to the best of its knowledge with respect to the following chemical products:

Methylchloride
Methylene Chloride
Chloroform
Carbon Tetra Chloride

which we supply to our customers **can contain traces of ethanol**, since methanol is used as a raw material in the production process.

The products are free from any animal components or products. Animal components or products are neither used as raw material nor added intentionally during the whole manufacturing process of above mentioned product. In addition, the production lines and transport used for the manufacturing, handling and transport of the product in question are completely dedicated and not used to produce any porcine or animal based materials. Therefore the presence of these substances is not expected in this context.

Our raw materials, processes and products are controlled within the scope of our ISO 9001 certified quality assurance system.

Date of Issue: February 3, 2020

The above information is provided for our customers only (and we accept no liability to any third parties) and reflects our current knowledge and experience of the product. All products are supplied in accordance with the relevant conditions of sale of the Nouryon invoicing company. Nouryon can accept no liability for the effects of any chemical combinations or mixtures of the product which are carried out by our customers or third parties. In using the product our customers are reminded to comply with all relevant legal, administrative and regulatory requirements and procedures relating to its use and the protection of the environment.
